# 2004

## Biography

### Jeff Leising

**Manager, Project Planning Office - Jet Propulsion Laboratory**

Jeff Leising has had thirty-six years experience at JPL in various engineering, project and program management positions. He has worked on such projects as Surveyor, the Mariner missions to Mars, Venus and Mercury, and the Voyager and Cassini missions to the outer planets. He is currently the manager of the Project Planning Office supporting over twenty-five formulation phase projects and proposals. His primary background is in propulsion, system engineering and management. He graduated from Cornell University with a Bachelors and Masters in Mechanical Engineering.

**NASA Project Management Conference**
